**BRITISH EDUCATIONAL
SUPPLIERS ASSOCIATION**

Kit for Kids is an official member of the British Education Suppliers Association (BESA). BESA is a trade association who work on behalf of their members to support UK-based companies that supply goods and services to the education sector. This includes lobbying Government and decision-makers on policy issues, providing information, training and advice and provide marketing opportunities and savings for BESA members in the UK and internationally.

Our Partnership with you...

How can we add to our partnership?

It's not about selling product; it's about delivering excellence to the end user. Excellence in this respect means the proposition of value for money, choice and great service.

We play our part by communicating this advocacy of excellence through marketing support. This increases the value proposition, increases the margin for you, our customer, and allows the purchaser to make an informed decision which is not based on price alone.

Trade Support Area

Our obsession with excellence extends to the way we communicate with you, the customer. We have made this process effective and simple.

Catalogue Marketing Support

Our design team will work with you to design catalogue pages, spread layouts and branding. This maximises catalogue space and enhances your customer proposition.

British Design

All products are designed in-house by our talented team of designers.

Product Development

Working in partnership to develop and bring your product ideas to life.

Mission

Starlight use the power of play to make the experience of illness and treatment better for children and for their families.

Play is Invaluable

One for Fun help to provide Distraction boxes full of toys, games and puzzles. These are a great toolkit for health professionals to help children feel less anxious before, during and after difficult procedures.

Protectors of Play

As a company, we are dedicated to raising funds throughout the year. All monies raised will help support Starlight's other programs such as Health Play Specialists, family escapes or group days.

STARLIGHT

Our Charity Partner

One for Fun has worked with Starlight for a number of years and we are delighted to strengthen that relationship by appointing them as our official charity partner. Childhood is a critical time in anyone's development. When illness intervenes, it's of critical importance to protect it. Starlight are passionate about protecting this time of play by providing entertainment and hope to poorly children and their families across the UK.

Contact Us

Our experienced customer service and sales teams can be contacted from **Monday to Friday between 8:30am and 5:00pm GMT** to answer your enquiries.

Early Years Foundation Stage

Our comprehensive research is conducted alongside a review of the current Early Years Foundation Stage (EYFS) framework.

This has enabled us to map out and categorise a number of our products to make it easier for teaching staff to see where our products support the key areas of learning and development.

Our research has resulted in the creation of a Kit for Kids Community, working in partnership with a number of schools and nurseries who now benefit from access to new and exciting products in return for their honest feedback and ideas.

All of this helps us to support you, our customers, to ensure all of our products will not only be of the highest quality but also meet the needs and requirements of the end user.

Qualitative Research & Product Development

We have spent a lot of time over the last few years conducting in-depth qualitative research with a number of teachers, schools and nurseries with the sole aim to ensure our products are fit for purpose.

We have employed the use of the Quality Function Deployment technique (QFD) to give a structured approach to defining customer needs and requirements. The process ensures our product development plan focuses on new and updated products that specifically meet those needs identified through the research stage.

Carpets

Our extensive range of carpets is designed to suit all classroom sizes and learning environments, from decorative and shaped carpets to themed placement carpets perfect for group activities and reading.

Carpets

Our carpets are designed to be of the highest quality, perfect for a busy classroom. They support the needs of teaching staff whilst providing opportunities for children to learn, be creative and enjoy the process along the way.

Our carpet range can be divided into a number of subcategories, all of which can be used for multiple activities to provide a valuable cross functional resource in any nursery or classroom.

05 Cleaning & Care Guide

Carpets should be spot cleaned with a damp cloth, but do not rub. Never use soap, bleach, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles. If in doubt, always seek professional advice.

Avoid contact with sharp or abrasive objects and cleaning machinery, i.e. flooring buffers and vacuum cleaners with beater bars. We suggest moving carpets when buffing floors to avoid contact.

When vacuuming, adjust the height of the beater bar to lightly agitate the carpet pile but not cause the motor of the vacuum to slow.

Avoid vacuuming over binding and edging.

04 Carpet Piles

All of our indoor carpets have an anti-slip Dura-Latex™ backing making them suitable for any indoor surface.

There are three grades of pile in the carpet range:

- Light & Durable Tuf-Loop™
- Thick & Soft Tuf-Pile™
- Super Soft Tuf-Pile™

01 Placement Carpets

Our placement carpets come in a range of designs and sizes to suit any classroom size or space. These carpets are suitable for both group discussions or quiet reading activities. Our large 3x3M carpets can also aid noise absorption in the classroom.

02 Themed Carpets

Our themed carpets are ideal for supporting various key areas of learning and development such as Literacy, Mathematics or Understanding the World. Many of our carpets can also be used to explore different cultures, languages or for managing emotions and behaviour.

Our literacy carpets are linked to the National Curriculum and use Sassoon Infant font to make letters easily identifiable.

03 Partnership with Carpet Recycling UK

Kit for Kids are now members of Carpet Recycling UK. We hope that this partnership will raise awareness of the challenges of recycling whilst highlighting ways we can be more sustainable, including encouraging the repurposing of our products.

Musical Instruments Carpet

MAT1257
Size: W x D: 2000 x 2000mm

Music development during early years has a wealth of benefits, including improving fine motor skills, language development, focus, teamwork and even fundamental maths skills. Music can also help with children's self esteem and confidence, so is great for overall wellbeing.

Storytime™ Carpets

Storytime during early years development will spark a child's imagination and stimulate their curiosity. It also helps to develop children's social and communication skills through collaborative play.

Outdoor Play

A range of outdoor
carpets and mats
to support learning
and play outside the
classroom.

Outdoor Play

This range consists of outdoor carpets and multi-use mats.

01 Carpets

All outdoor carpets have Tuf-Loop™ pile which is lightweight, making them easy to carry and move. They include either Outdoor Rhombus™ backing, which is hardwearing and waterproof for outdoor use only, or specialist indoor/outdoor backing which is suitable for any surface.

Our Chloe Caterpillar outdoor carpet is great for teaching numeracy and literacy in an outdoor setting, whilst the Back to Nature garden carpet creates opportunities for role play and encourages children to be imaginative and build their self confidence.

We also have carpets which support physical development such as our Hopscotch outdoor carpet and our Yoga Indoor/Outdoor mini carpets.

02 Outdoor Mats & Trolleys

Our outdoor mats are supplied with storage trolleys with lockable castors, making them easy to move from the classroom to outdoors. The cushions are washable and perfect for outdoor group activities or quiet reading sessions.

03 Cleaning & Care Guide

Outdoor carpets should be spot cleaned with a damp cloth, but do not rub. Never use soap, bleach, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles.

When not in use, always keep the carpet rolled up and do not fold. Always ensure that the carpet is dry before doing so. The care label must not be removed and products must be used on outdoor surfaces only, unless clearly stated that they are suitable for indoor surfaces.

The outdoor mats can be washed at 30°C.

NB. Product warranty will become invalid if the carpets are not used correctly.

Outdoor carpets should be spot cleaned with a damp cloth

When not in use, always keep the carpet rolled up and do not fold.

BN2135

Suitable for indoor & outdoor use.

Yoga Position Mini Carpets

- Mini placement carpets supplied with a free of charge holdall for easy storage.

Soft Furniture

A quality range of soft seating and floor cushions, available in plain colours and distinctive themed prints to suit a variety of learning environments.

Soft Furniture

We offer a number of distinctive products in our soft furniture range, including themed printed soft seating and cushion sets.

01 Soft Seating

Kit for Kids offer a wide range of innovative seating options, in both plain colours and printed themes.

Our soft seating is ergonomically designed at ideal heights to ensure a child's comfort. Our vinyl is backed with a reinforced mesh to resist tearing or fraying after heavy daily use, and many products also include a non-slip base.

All of our soft furniture complies with the latest European standards to ensure a safe and long lasting product, best suited for busy childcare environments. These products are manufactured with non-removable covers to make sure children cannot gain access to the foam within.

02 Floor Cushions

We offer an extensive range of vinyl and polyester floor cushions. Our plain coloured story cushions and giant sags are great for reading activities.

We also provide specially designed floor cushions that tackle key topics such as managing feelings and behaviour i.e our Emotions™ range. These are excellent cross-functional products that can be used for smaller group activities and reading as well as for leading interactive group discussions around these topics.

03 Plush

Plush soft play items are great for introducing children to different tactile fabrics as well as providing a soft and comfortable place to sit and play in the nursery environment.

The fabrics are designed to be hardwearing and fade resistant, and can be washed at 30°C to maintain levels of hygiene.

It is essential that all products with removable covers have sealed inner covers so that the foam or fibre core is not accessible to the child. Safety is of the utmost importance to us so our products not only have safety specified interliners but they also have the zip puller removed so that only an adult can open the cover for washing.

04 Cleaning & Care Guide

Both polyester and vinyl soft furnishings can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, i.e. woodwork, linoleum or tiles.

Our plush soft play items have washable covers. Always follow the washing instructions given on the care label of the product. Plush products can be spot cleaned with a damp cloth but as with vinyl, never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces.

Our Polyester Rainbow mats are also washable at 30°C.

Soft Play

A range of versatile soft play shapes, activity mats and sensory items that are ideal for imaginative play and supporting physical development.

Soft Play

Our range of soft play products is great for promoting imaginative and active play in the childcare environment.

From small activity mats and sensory cubes to soft play kits, our range can transform any early years environment.

01 Activity Kits

Our versatile activity kits include a variety of soft play shapes. They are ideal for physical learning activities including construction, moving and handling, role play, and allowing children to create their own paths and obstacle courses.

All activity kits come with a handy holdall to make them portable, perfect if they are to be a shared resource, and easy to store.

We use high quality vinyls to ensure these products last within an active and busy nursery environment.

02 Sensory

Our range of sensory items are designed to aid the development of visual and motor skills. The Mirror Cube has soft mirrors to promote self-awareness which are set within a variety of geometric shapes, providing an opportunity for early shape recognition.

03 Play Mats

All of our activity and tumble mats fold for convenient storage and the strong welded seams allow for these mats to be used both indoors and outdoors.

The large tumble mat is ideal for use under play equipment or for elementary gymnastics.

04 Cleaning & Care Guide

Our soft play products can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, e.g. woodwork, linoleum or tiles.

Sensory

Aiding dexterity, fine motor and visual development skills.

Tables & Chairs

.....

A functional and quality range of wooden tables and chairs, designed for the rigours of daily use in a busy classroom environment.

Tables & Chairs

Kit for Kids tables and chairs offer exceptional build quality ensuring our products are both strong and stable.

Safety is of the utmost importance in the learning environment which is why our furniture is tested for endurance and meets BSEN1729-2:2012 + A1:2015 Furniture – Chairs and Tables for Educational Institutions.

TUF CLASS™

TUF TOP™

01 Tables

We use high quality laminates and lacquered finishing paints, mounted on a dense MDF core to ensure a quality finish and making our table tops resistant to scratching and colour fading. All natural hardwood and painted plywood is varnish protected to aid longevity.

The wooden leg tables are reinforced with a supportive under-frame which is both glued and screwed to the table top. They are counterbalanced meaning they have a thick laminate base panel which adds strength and prevents warping over time.

Our height adjustable Tuf Top™ tables have Tri-lock™ reinforced legs to give additional strength and self levelling feet, ideal for uneven floors around the school.

02 Chairs

Our chairs are delivered fully assembled.

All joints are reinforced by screws, wooden dowels and glue to ensure their long-term strength. Our chairs have a crossbar between the front legs to reinforce the chair frame.

We also pride ourselves on ensuring that all products manufactured from hardwood are selected from sustainable forests.

Reinforced with crossbar

European Standards For Tables & Chairs

EN1729 Part 1
Functional Dimensions

All Kit for Kids tables and chairs are manufactured to the highest standards. Ergonomic design depends on having the right furniture height for the child at the right age. We have adopted the European standard EN1729 Part 1 Functional Dimensions.

Our Tuf Class™ and Tuf Top™ wooden tables and chairs are made to the size marks S2 to S4 for correct posture and meet the recommended popliteal chair and table heights.

Age Recommendation For Classroom Furniture

Seating Numbers

Height Adjustable Legs
 Adjustable heights in 25mm increments: nominal 430 to 635mm.

Tri-lock™ System
 Kit for Kids unique Tri-Lock™ system provides maximum leg strength in all heights and protects against multidirectional impacts.

Self Levelling Feet
 Height adjustable legs feature self levelling feet ideal for uneven floors around the school.

Trolleys

A range of quality wooden and metal trolleys for robust storage solutions.

Trolleys

The Kit for Kids range of trolleys combines large capacity and mobility with safety and stability.

All trolleys meet the BSEN16121:2013+A1:2017 (Level 2) testing standard for strength and stability, recommended for heavy use in schools. As these products are both heavy and bulky, our furniture is delivered within a double carton which is foam lined and drop tested to make sure your products arrive in perfect condition.

All Kit for Kids trolleys come with 2 lockable castors

01 Tuf™ & Tuf 2™ Trolleys

At Kit for Kids we offer wooden and metal trolley options, both of which are sturdy and functional. Our trolleys are hand finished with heavy duty castors for high weight tolerances, two of which are lockable for static use, and fixing points are reinforced for longevity.

Our wooden trolleys use contoured MDF beech laminate panels with sealed matching edges for durability and low maintenance, with reinforced scratch resistant frames to give superior strength.

Shelves are individually reinforced to take excessive loading depending on the trolley's application.

02 Donut™ Trolleys

Innovatively designed to fit either 12 or 24 Donut™ cushions or 32 Rainbow™ mats, these sustainable hardwood trolleys allow easy and practical storage when not in use.

These are great for sharing resources between classrooms.

Scan QR Code for more info

Tuf™ Trolley Range

Strong steel frame trolleys, designed for longevity and to manage the daily rigours of a busy school environment.

The reinforced blue and silver powder coated (EPC) scratch resistant structure gives superior strength. Supplied flat packed.

Rest & Changing

From basic changing and sleep mats to our high quality professional Snoozemat®, Kit for Kids has everything you need for a busy childcare environment.

Rest & Changing

Our Rest & Changing range includes high quality changing and sleep products. All are made from stain resistant and wipe clean vinyls, as we understand the importance of hygiene in a busy childcare environment.

Quiet time is as important for physical development as play time during the early years, and our Snoozeland® products are perfectly suited to give children a comfortable rest.

25mm mat depth for comfort

01 Cleaning & Care Guide

Vinyl products can be cleaned with a damp cloth. Never use soap, bleach, ammonia, laundry detergent or any strong household cleaning agents intended for use on hard surfaces, e.g. woodwork, linoleum or tiles.

Welded seams create hygienic seal

Snoozemat® Silver
